Cluster Dendrogram

Height

- Cell adhesion molecules
- Regulation of actin cytoskeleton
- Focal adhesion
- ECM–receptor interaction
- Proteoglycans in cancer
- Bacterial invasion of epithelial cells
- VEGF signaling pathway
- EGFR tyrosine kinase inhibitor resistance
- JAK–STAT signaling pathway
- Human cytomegalovirus infection
- Hepatitis B
- Gap junction
- Oxytocin signaling pathway
- Calcium signaling pathway
- Rap1 signaling pathway
- Ras signaling pathway
- ATP–dependent chromatin remodeling
- Cell cycle
- Homologous recombination
- Base excision repair
